

1804.203

Work, to the NASA Center for Aero-Space Information (CASI), Attention: Document Processing Section, 7121 Standard Drive, Hanover, MD 21076-1320.

[64 FR 36606, July 7, 1999]

1804.203 Taxpayer identification information.

Instead of using the last page of the contract to provide the information listed in FAR 4.203, NASA installations may allow contracting officers to use a different distribution method, such as annotating the cover page of the payment office copy of the contract.

[64 FR 1528, Jan. 11, 1999]

Subpart 1804.4—Safeguarding Classified Information Within Industry

1804.402 General.

(b) NASA security policies and procedures are prescribed in NPD 1600.2A, NASA Security Policy; NPG 1600.6A, Communications Security Procedures and Guidelines; NPG 1620.1, Security Procedures and Guidelines; NPG 2810.1 and NPD 2810.1 Security of Information Technology.

[66 FR 53546, Oct. 23, 2001]

1804.404-70 Contract clause.

The contracting officer shall insert the clause at 1852.204-75, Security Classification Requirements, in solicitations and contracts if work is to be performed will require security clearances. This clause may be modified to add instructions for obtaining security clearances and access to security areas that are applicable to the particular acquisition and installation.

1804.470 Security requirements for unclassified information technology resources.

1804.470-1 Scope.

This section implements NASA's acquisition-related aspects of Federal policies for assuring the security of unclassified automated information resources. Federal policies include, but are not limited to, the Computer Security Act of 1987 (40 U.S.C. 1441 *et seq.*), the Clinger-Cohen Act of 1996 (40 U.S.C.

48 CFR Ch. 18 (10-1-02 Edition)

1401 *et seq.*), Public Law 106-398, section 1061, Government Information Security Reform, OMB Circular A-130, Management of Federal Information Resources, and the National Institute of Standards and Technology security guidance and standards.

[67 FR 48815, July 26, 2002]

1804.470-2 Policy.

(a) NASA policies and procedures on security for automated information technology are prescribed in NPD 2810.1, Security of Information Technology, and in NPG 2810.1, Security of Information Technology. The provision of information technology (IT) security in accordance with these policies and procedures, is required in all contracts that include IT resources or services in which a contractor must have physical or electronic access to NASA's sensitive information contained in unclassified systems that directly support the mission of the Agency. This includes information technology, hardware, software, and the management, operation, maintenance, programming, and system administration of computer systems, networks, and telecommunications systems. Examples of tasks that require security provisions include:

(1) Computer control of spacecraft, satellites, or aircraft or their payloads;

(2) Acquisition, transmission or analysis of data owned by NASA with significant replacement costs should the contractor's copy be corrupted; and

(3) Access to NASA networks or computers at a level beyond that granted the general public, e.g. bypassing a firewall.

(b) The contractor must not use or redistribute any NASA information processed, stored, or transmitted by the contractor except as specified in the contract.

[66 FR 36491, July 12, 2001]

1804.470-3 Security plan for unclassified Federal Information Technology systems.

(a) The requiring activity with the concurrence of the Center Chief Information Officer (CIO), and the Center Information Technology (IT) Security Manager, must determine whether an

IT Security Plan for unclassified information is required.

(b) IT security plans must demonstrate a thorough understanding of NPG 2810.1 and NPD 2810.1 and must include, as a minimum, the security measures and program safeguards planned to ensure that the information technology resources acquired and used by contractor and subcontractor personnel—

(1) Are protected from unauthorized access, alteration, disclosure, or misuse of information processed, stored, or transmitted;

(2) Can maintain the continuity of automated information support for NASA missions, programs, and functions;

(3) Incorporate management, general, and application controls sufficient to provide cost-effective assurance of the systems' integrity and accuracy;

(4) Have appropriate technical, personnel, administrative, environmental, and access safeguards;

(5) Document and follow a virus protection program for all IT resources under its control; and

(6) Document and follow a network intrusion detection and prevention program for all IT resources under its control.

(c) The contractor must be required to develop and maintain an IT System Security Plan, in accordance with NPG 2810.1, for systems for which the contractor has primary operational responsibility on behalf of NASA.

(d) The contracting officer must obtain the concurrence of the Center Chief of Security before granting any contractor requests for waiver of the screening requirement contained in the clause at 1852.204-76.

[66 FR 36491, July 12, 2001]

1804.470-4 Contract clauses.

The contracting officer must insert a clause substantially the same as the clause at 1852.204-76, Security Requirements for Unclassified Information Technology Resources, in solicitations and contracts which require submission of an IT Security Plan.

[66 FR 36491, July 12, 2001]

Subpart 1804.5—Electronic Commerce in Contracting

SOURCE: 63 FR 9954, Feb. 27, 1998, unless otherwise noted.

1804.570 NASA Acquisition Internet Service (NAIS).

1804.570-1 General.

The NASA Acquisition Internet Service (NAIS) provides an electronic means for posting procurement synopses, solicitations, and associated information on the NAIS Internet site which in turn, automatically posts relevant information onto the Governmentwide point of entry (GPE).

[66 FR 53546, Oct. 23, 2001]

1804.570-2 Electronic Posting System.

(a) The NAIS Electronic Posting System (EPS) enables the NASA procurement staff to—

(1) Electronically create and post synopses on the NAIS Internet site and the GPE; and

(2) Post solicitation documents, including solicitation amendments or cancellations, and other procurement information on the NAIS Internet site with linked references on the GPE.

(b) The EPS maintains an on-line index linking the posted synopses and solicitations for viewing and downloading.

(c) The EPS shall be used to—

(1) Create and post all synopses in accordance with FAR part 5 and NFS 1805; and

(2) Post all competitive solicitation files, excluding large construction and other drawings, for acquisitions exceeding \$25,000.

(d) The NAIS is the official site for solicitation postings which in turn, automatically posts relevant information onto the Governmentwide point of entry (GPE). In the event supporting materials, such as program libraries, cannot be reasonably accommodated by the NAIS, Internet sites external to NAIS may be established after coordination with the contracting officer. Such sites must be linked from the NAIS business opportunities index where the solicitation resides. External
